## Accreditation

Accredited by several associations, including the Higher Learning Commission (since 1913), Carleton offers the Bachelor of Arts degree. Carleton's Education licensure programs are fully accredited by the Board of Teaching of the State of Minnesota. Carleton is also a member of the Associated Colleges of the Midwest (ACM).

## Concentrations and Certificates of Advanced Study in Foreign Language & Literature/Area Studies

A Concentration provided an opportunity to bring focus to students' choice of electives through an integrated interdisciplinary program that complemented the major. The Certificate of Advanced Studies in Foreign Language required satisfactory completion of six courses in the chosen language or area studies group beyond 103 (204 in Asian Languages). (Discontinued September 2017)

## Academic Calendar

Carleton College operates under a three-term system of 10 weeks each term with 210 minutes of class time per week.

## Credits

A Carleton undergraduate course is the equivalent of a semester course. The standard course unit is 6 credits; for purposes of transfer evaluation, 6 credits are comparable to 3 1/3 semester credits. Although all standard courses carry equal credit, laboratory courses at Carleton are equivalent to those in other colleges that grant 5 semester credits. Transfer credits, non-Carleton off-campus study, and credits which are taken on a S/CR/NC basis do not count in GPA computations. Graduate courses are recorded in quarter credits; 3 quarter credits are the equivalent of 2 semester credits.

## Normal Load

The normal course load is three full courses (18 credits) per term. Students are permitted to take as few as 12 credits per term and as many as 22. With permission from the Academic Standing Committee, they may take 24 credits in a term. The degree requires 204 credits (34 courses) plus an integrative exercise. Beginning September 1985, credits are awarded for the integrative exercise, bringing the total requirement to 210 credits.

## Grading System

GPA is based on grade points divided by graded course credits attempted. Credit for work graded S/CR counts toward graduation but is not used in computing GPA. Credit for work graded NC is also not used in computing GPA. When a course is repeated only the last grade is used in final cumulative GPA computations.
